

6516208565.txt

To: FCC

We want to register our vote to ask you to reject the NAB's petition 04-160. We use satellite radio daily, and enjoy the variety, quality of music, and other benefits that are not available via normal radio stations. We can listen to what we want and not the off-color comments by a lot of our local stations disc-jockeys. We also make use of the traffice and weather channels offered via satellite. We PAY (gladly) for this radio usage, and feel that it is not up to the NAB to dictate what we are permitted to hear. We ask for your support for our continued enjoyment and for XM's ability to provide the kind of programming that we pay for and deserve. No one should have the right to tell us (the consumer) what products we may buy and listen to, radio or otherwise.

Thank you for your support.
